

Melissa Welz

Professional Growth Plan 2023-2024

TRANSFORMATIONAL LEADERSHIP

Transformational leadership is a style that I believe changes you and the people that listen to you. This style encourages, inspires, and motivates everyone around you; including yourself. Transformational leaders possess the ability to move followers to accomplish more than what's expected (Northouse, 2019).

MY VISION

My vision begins with transforming learning in our Visual and Performing Arts world. Once these goals are clear, technology can be used to open new possibilities for accomplishing the vision that would otherwise be out of reach.

LONG TERM GOALS

- build an app for audition tips, motivation, and inspiration in music.
- write a book on "self love".
- build a strong following on social media accounts.
- Build and grow my own YouTube personal branding account.
- Graduate with honors of the NJCU Ed.D Educational Technology Leadership program.
- Become a supervisor or Vice Principal in the North Bergen School District

1

EDUCATIONAL TECHNOLOGY LEADER

I would like to take part in many uses of technology to transform learning in the visual and performing arts world. I would like to have a strong leadership that creates a shared vision of technology that helps build the North Bergen School district's Visual and Performing Arts programs. Technology alone does not transform learning; rather, technology helps enable transformative learning. Education leaders need personal experience with learning technologies, an understanding of how to deploy these resources effectively, and a community-wide vision for how technology can improve learning.

2

MISSION

MY MISSION

To serve as a leader in the Music and Visual Arts industry, live a balanced life, and apply ethical principles to make significant differences in our educational system. I would also like to be known for inspiring my students to be more than they thought they could be.

SHORT TERM GOALS

- ✓ Present at various leadership conferences.
- Have a strong following on social media, such as Twitter, Instagram, and TikTok.
- ✓ Complete all NJCU Ed.D Technology Educational Leadership classes.
- Revise Hudson County Visual and Performing Arts curriculum with technology enhanced learning.

6

"Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle. As with all matters of the heart, you'll know when you find it."

~Steve Jobs

Professional Growth Plan - Melissa Welz
